

PIKE SWISS BRAND SAW BLADES

SEE FOR YOURSELF

THEIRS:

Manufactured by the standard MILLING PROCESS

The economical **Milling Process** leaves Massive burs on one side of the teeth Which prevents the blade from sawing Straight. The space between the teeth is Often not equal, thereby producing Inconsistent cuts.

OURS:

Manufactured by our precision FILING PROCESS

By contrast, we manufacture our saw blade With Swiss filing to produce teeth that are Perfectly sharpened and have a consistent Point to the tooth. Our precision **FILING PROCESS** of manufacturing results in Superior saw blades to cut Easier, faster, straighter and Cleaner every time.

JEWELERS PIERCING SAW BLADES

Made in Swizerland, these are the finest Jewelers saw blades available. Manufactured To exacting tolerances for angle, size and cut of each tooth.

Each tooth is a **Filing Process** not **Milling Process**.

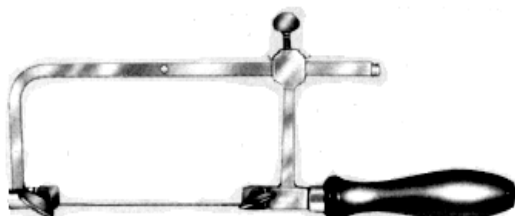

For cutting all metals and other materials. Featuring:

Our unique tempering process which ensures consistent **flexibility** and long blade life and gives our saw blades their exclusive gold straw color. This golden straw color is your guarantee of receiving the world's finest saw blades.

Rounded back makes cutting curves easier.
